The Provisioning Process and Supply Support
A Virtual Three-day Presentation
5-7 December 2023

Provisioning is a vital process that ultimately determines the materials that should be available to support maintenance of a system, and to achieve a required operational availability target for a hopefully reasonable cost. This course is a unique offering that is a guided tour through the “nuts and bolts” of the complete provisioning process. It encompasses every aspect of the process from start to finish. This course is the only one of its kind.

Course Content and Focus:

A detailed presentation encompassing the relationships of technical disciplines within Product Support and how each contributes to the Provisioning process and Supply Support activities. Included in the course are in-depth discussions of reliability, maintainability, testability, reliability centered maintenance and availability and how these areas drive requirements for maintenance. Specific emphasis is placed on the provisioning process starting with requirements for spares and repair parts from Level of Repair Analysis and then moving to processes for determining quantities of spares required to support maintenance. Spares modeling using Poisson Distribution, Readiness Based Sparing and other methods are presented. The development of each individual data element required for generation of provisioning documentation to reflect the results of this process is presented in detail focusing on how data is used to feed the development of authorization documents such as the US Navy’s APLs and COSALs. Each data element required for the LSA-036 report, or similar CDRL deliverable document, is discussed including its source and interpretation. Alternative to the LSA-036 are presented that meet current DoD sparing requirements. The course also discusses how Configuration Management and design changes influence requirements for spares and repair parts, and how standardization and the DMSMS process address obsolescence. At the completion of this course students should have the knowledge necessary to function as a provisioning analyst on a contemporary acquisition program.

Course Outline:

Concepts of Spares Requirements and Provisioning

- Definitions of Materials
- Initial Provisioning
- Re-provisioning
- Spares Management
- Supply Support
- Maintenance Planning
 - Maintenance and Sparing Philosophy
 - Maintenance and Sparing Concept
 - Maintenance and Sparing Plan

Integrated Product Support Elements

- Supply Support
- Support and Test Equipment
- Technical Documentation
- Training
- Facilities
- PHS&T
- Design Interface

Designing for Provisioning and Supply Support

- Design Reference Mission Profile
- Systems Engineering
- Design Engineering
- Reliability
- Maintainability
- Testability
- Accessibility
- Availability
- Standardization
- Parts Management (MIL STD 3018)
- DMSMS

Spares Quantification

- Spares Modeling
- Poisson Distribution
- Readiness Based Sparing
- Sparing to Availability

Logistics Management Associates

Developing Support Solutions

Maintenance Task Analysis

Support Resource Documentation

Spares Ranging

Pre-Provisioning Screening

Level of Repair Analysis

SMR Code Development

NSN Assignment

Maintainability/Supportability Demonstrations

Provisioning Process

Provisioning Requirements Statement (PRS)

Provisioning Performance Schedule (PPS)

Provisioning Guidance Conference

Contracting (SOW/CDRL)

Provisioning Data Delivery

Provisioning Conference

Spares Ordering and Delivery

Provisioning Data and Documentation

Provisioning Lists (PTD)

LLTIL,PPL, CBIL, TTEL, SFPPL, PCL, DCN and SPTD

Provisioning Data Elements

(in depth discussion of each data element required for provisioning including data source, data application and data interpretation)

Configuration Management

Design Baselines

Configuration Status Accounting

Design Changes

Design Change Notices

Spares Management

The DoD Supply System

Inventory Management

In-Service Provisioning

Product Life Cycle Support (PLCS)

Course Fee: US\$895

Registration: conference@log-mgmt.com

Registration Form

Name _____

Email _____

Company/Organization _____

Contact Telephone _____

Please register me for:

- The Provisioning Process and Supply Support - \$895
5-7 December 2023
 - Early Bird Discount 10% (Register before 15 October 2023)
 - CLEP/SOLE Active Member Discount 10%

Payment Method:

- Visa/MC/Amex
 - Name on Card _____
 - Card Number _____
 - Expires _____
 - CVC _____
 - Billing ZIP/Post Code _____
- PayPal
 - Send invoice to (email): _____
- SF182 (USN/USMC) (attached)
